

REMARKS

Applicant wishes to thank Examiner Thier for the telephone interview on March 12, 2009. Pursuant to that discussion, claim 1 has been amended to recite that the hub communicates information from the position determination device, the subsystem indicator, and the mobile communication device to the remote computer, and to recite that the communication device communicates with the computer solely via the hub. Independent claims 16 and 31 have been similarly amended, and all of the claims are now believed to be allowable.

This application is in condition for allowance, and such action is respectfully requested. If the Examiner has any questions or comments, he is invited to telephone the undersigned. A Petition for Extension of Time of one month is filed herewith. The Commissioner is hereby authorized to charge any fees, which may be required, or credit any overpayment, to Deposit Account Number 50-3797.

Respectfully submitted,
